

TRUMPF

Shear TruTool S 250 LiHD 18 V
Cut easily without exertion

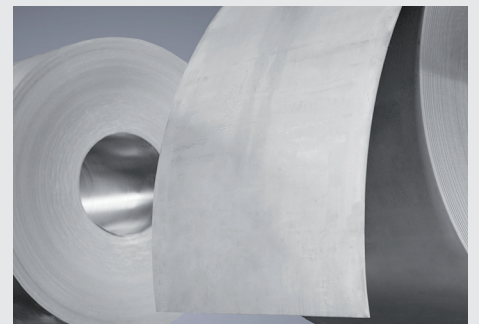

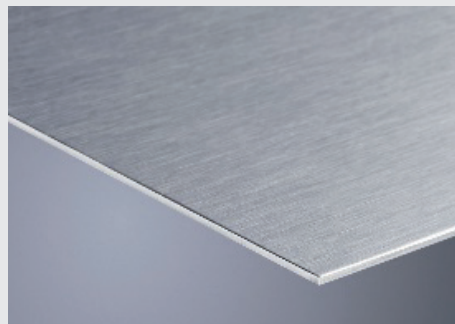

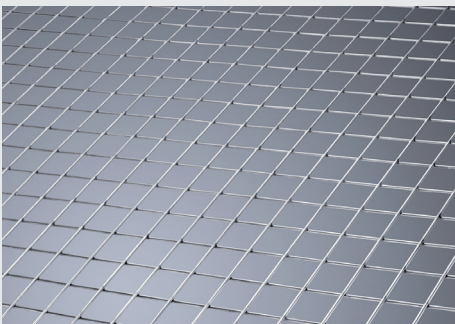

Shear TruTool S 250 LiHD 18V

For sheet thicknesses up to 2,5 mm

The TruTool S 250 18V LiHD is the only rechargeable battery shear capable of cutting sheet thicknesses of 2.5 mm in mild steel and 1.5 mm in stainless steel. With this tool you always have an unrestricted view of the work surface and the cutting line. In addition, the compact machine is extraordinarily powerful and you can work without tiring, using only a low

feed force. Curves can also be processed effortlessly. This is made possible by the perfectly coordinated geometry of the cutter, cutting table and hand protection. In addition, any collision with the sheet metal chip is avoided during the cutting process, ensuring a very high level of operator protection.

Diverse range of applications

- Cut wire mesh. For example, for blocking safety areas/operation protection
- Cut flat sheet and radial sections. For interior cutouts and radii
- For coil-cuts

Industries: apparatus construction, container construction, stamping workshops. **Tip:** Use in the sector tinsmith when stainless steel is processed.

Further advantages

- **Softgrip:** for safe and vibration-free operation
- **Fast and precise:** rapide work progress and dimensionally accurate work
- **Low operating costs:** long service life of the cutters and the possibility of 2 way rotation
- **Brushless motor:** practically unlimited service life, virtually wear-free

Technical data

Technical data

Shear TruTool		S 250 LiHD 18 V
Max. sheet thickness		
Steel 400 N/mm ²	mm	2,5
Steel 600 N/mm ²	mm	2
Steel 800 N/mm ²	mm	1,5
Aluminium up to 250 N/mm ²	mm	3
Smallest radius	mm	20
Working speed (max.)	m / min	8
Start hole diamater	mm	28
Tension	V	18
Weight	kg	2,5
Length x width	mm	325 x 188

Cordless Alliance System

1 battery, over 30 brands and 300 machines

Our cross-manufacturer system ensures that machines, CAS rechargeable battery packs, and rechargers are 100% compatible with one another! Thanks to CAS, TRUMPF power tools also benefit from the world's most powerful rechargeable battery system in the industry from Metabo, as well as over 30 years of expertise in rechargeable batteries. The benefit to you: Maximum reliability, clear cost benefits and a sound investment.

1 battery for all
