Chairwoman of the Administrative Board: Dr. phil. Nicola Leibinger-Kammüller

Summary

During the installation of specific TRUMPF Windows applications, privileged local users with default usernames and passwords are created. An adversary could use these users to access and compromise the affected Windows systems and, under certain circumstances, other network resources.

Impact

Privileged local users with default usernames and passwords can be used to access and compromise affected Windows PCs and possibly other network resources.

Solution

Please contact your TRUMPF Service with the PR number 496330.

Coordinated by CERT@VDE
