

Tight in Time?
Use our Priority
Repair Service!

Reduced Downtimes

Do you need your unit back into operation as fast as possible? We need about 15 days for a typical repair. If you want an accelerated handling we can offer you our special priority repair service.

Your Benefits

With our priority repair service you benefit from the immediate handling of your service request. To provide the fastest possible repair time, work is guaranteed to start the first working day after the receipt of goods. Repair duration depends on the extent of damage and availability of spare parts. However, on average it is five times faster than our normal repair time. We will keep you informed at every stage of the process from evaluation, repair, testing, and shipment.

Increased Availability

Average Repair Time with Priority Repair Service*	Usual Repair Time
3 days	15 days

* Depending on the extent of damage and availability of spare parts.

Our priority repair service is optionally available for a fixed amount of 1200.00 Euros for every repair case. Benefit from the rapid repair of your units!

For further information please contact our service hotline or your responsible sales manager.
