TRUMPF Hüttinger
generating confidence

TRUMPF Hüttinger quality services.

Service contracts – for maximum generator availability.

TRUMPF Hüttinger generators are robust and provide years of trouble-free performance even in harsh production environments. If you want even more reliability then a service contract tailored to your precise requirements is the perfect solution. Our predefined service packages extend reliability and provide increased flexibility.

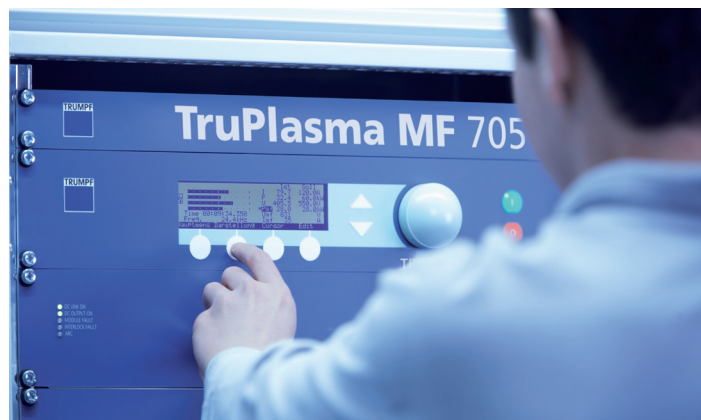

Fixed annual flat rates allow you to budget for maintenance and operating costs. In addition, the regular inspection is a proactive means of ensuring that you can use your TRUMPF Hüttinger generator for even longer. We will be happy to advise you on the details of our service contracts which are currently available for Germany, Switzerland, Austria, France, Italy, the Netherlands and Belgium. Is your country not listed? Then we look forward to receiving your inquiry.

Your benefits

- Fixed annual flat rates allow budgeting for maintenance and operating costs
- Increased value retention of your TRUMPF Hüttinger generator
- Extended uptime thanks to preventive maintenance and the ability to schedule downtimes
- Faster response times
- Guaranteed availability of spare parts during contract period
- Deployment of loan generators possible
- Regular updates to enhance performance of your generator
- Extended service standby, e.g. through 24h service hotline

Contracts for generators

The contracts range from Classic to Premium and build on one another, gradually including more services, from preventive maintenance according to a specific checklist and the provision of loan generators right through to all-inclusive contracts covering all needed spare parts and repairs.

Classic: Preventive maintenance

Your success formula: Starting with day one, extra services allow for extended availability of your TRUMPF Hüttinger generator.

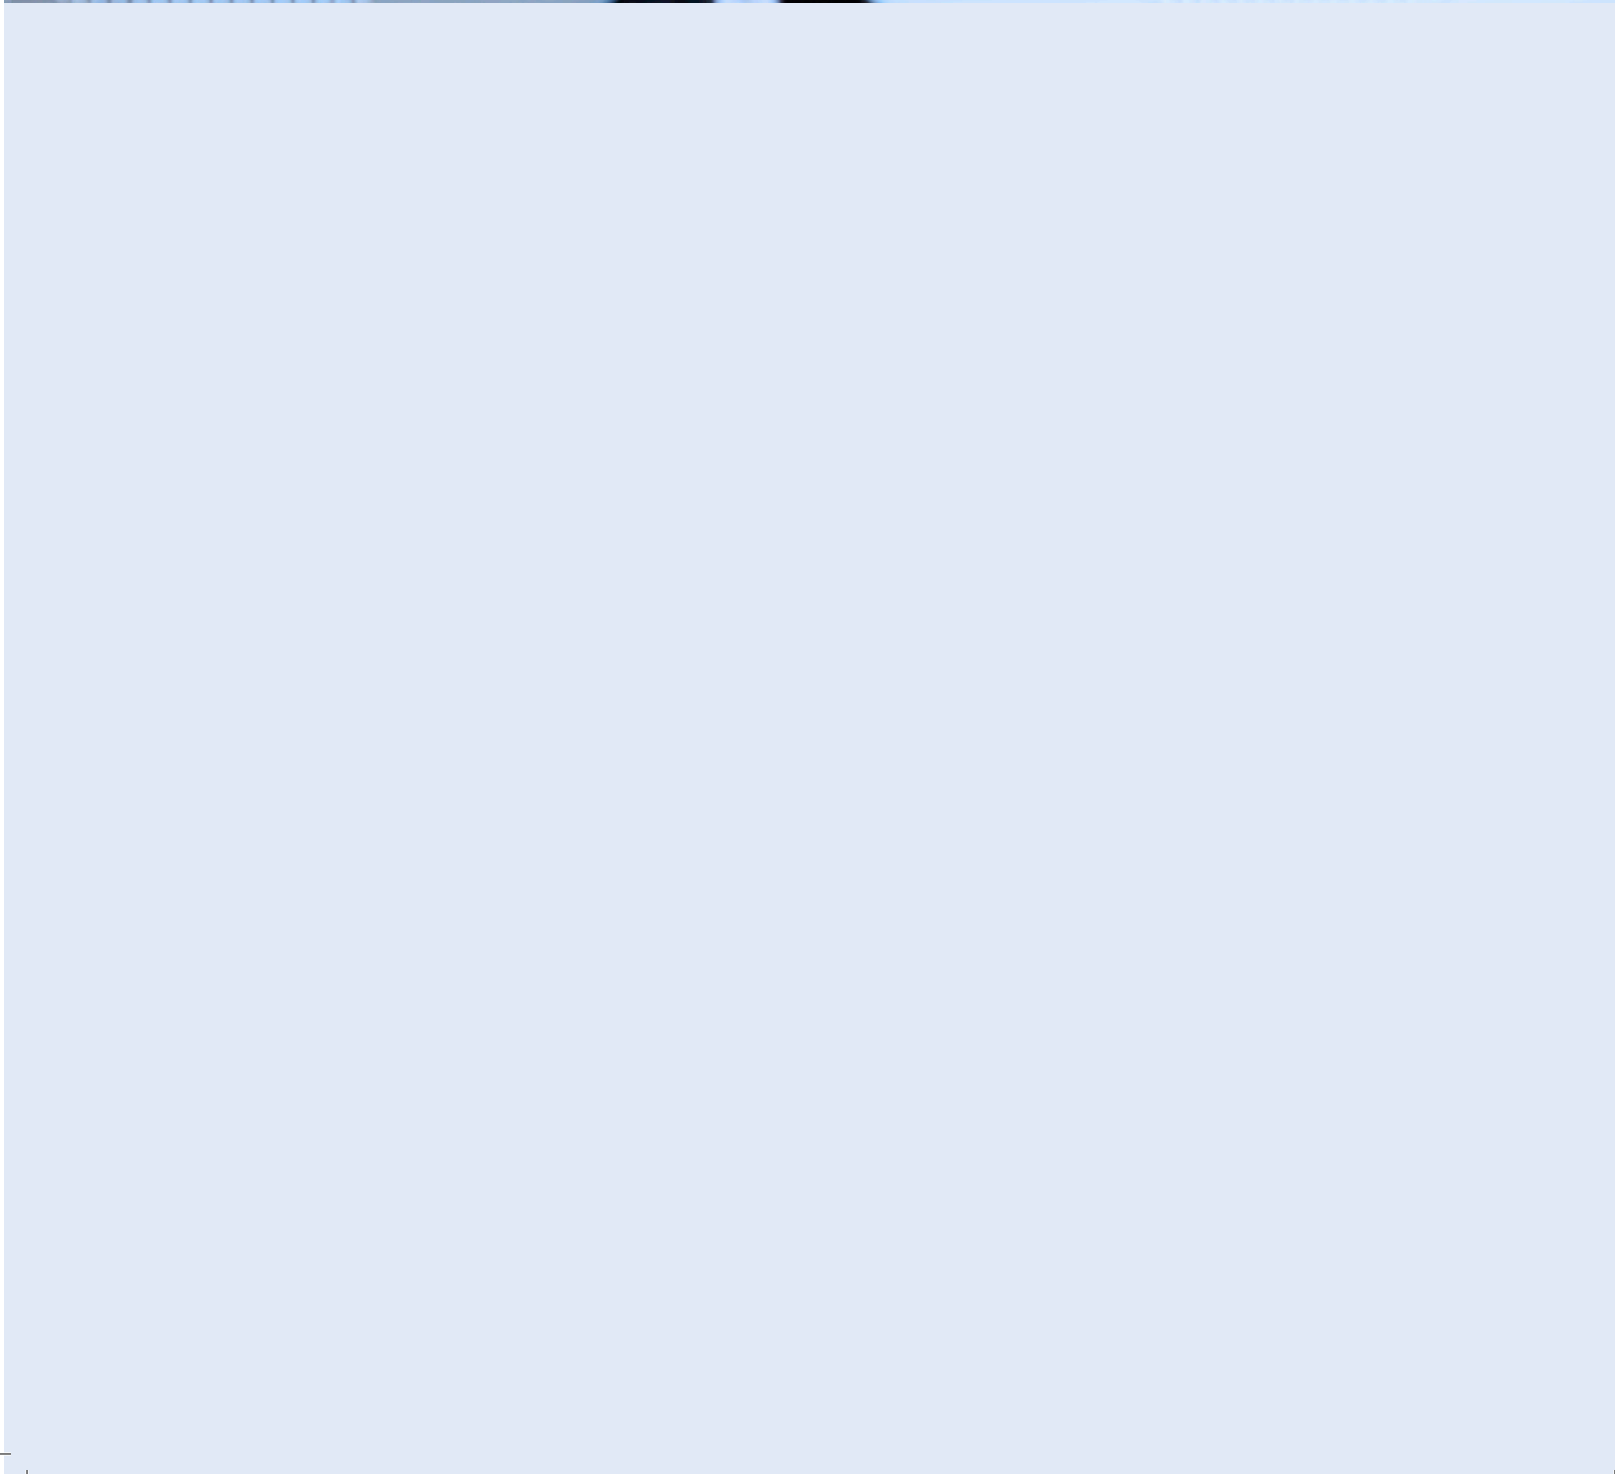

- Regular preventive maintenance
- Software updates
- 5 percent discount on spare and wear parts required during servicing assignments (excluding tubes)

Special: Maintenance and repairs

Service at a fixed rate. Preventive maintenance and elimination of any faults of your TRUMPF Hüttinger generator.

- On-site assistance included in case of generator outage
- Deployment of loan generators possible
- Regular preventive maintenance
- Software updates
- 10 percent discount on spare and wear parts required during servicing assignments (excluding tubes)

Premium: Full service including spare parts

All-inclusive – the full service package.

The Premium contract combines the benefits of Classic and Special. The package comprises preventive maintenance, elimination of any faults, labor and travel costs for our service engineers. Allowing you to keep track of your operating costs.

- Spare and wear parts required during servicing assignments included (excluding tubes)
- On-site assistance included in case of generator outage
- Deployment of loan generators possible
- Regular preventive maintenance
- Software updates

24h service hotline

In case of service, would you like our service engineers to assist you at night times, Sundays and public holidays? If so, we are pleased to offer you – in combination with our service contracts – TRUMPF Hüttinger's 24h service hotline.

Via this hotline, a professional service engineer is available for you: 24 hours, 7 days a week.

Contact

Do you have any further questions? Would you like us to provide you a non-binding quote? We will be pleased to advise you on our individual services and maintenance packages.
