Company Profile

TRUMPF Inc. (TRUMPF) is a wholly-owned subsidiary of the TRUMPF Group, a multinational and privately-held group based in Germany. Dedicated to serving the manufacturing needs of the American, Canadian and Mexican markets, TRUMPF is currently the largest manufacturer of fabricating equipment and industrial lasers in North America. It was founded as TRUMPF America Inc. in 1969.

Headquarters and Other Offices

TRUMPF's North American headquarters are located in Farmington, Connecticut. In addition to the Connecticut campus, TRUMPF Inc. includes the Laser Technology Centers in Plymouth, Michigan and Santa Clara, California, the TRUMPF Technology Center in Costa Mesa, California, and the Chicago-area TRUMPF Smart Factory in Hoffman Estates, Illinois, which is an Industry 4.0 international center of excellence.

TRUMPF's North American operations also include facilities in Mississauga, Canada and Apodaca, Mexico, as well as TRUMPF Photonics in Cranbury, New Jersey, Stellar Industries in Millbury, Massachusetts, and an EUV business in Seattle, Washington.

Community Involvement

TRUMPF and its employees donate time and resources to local civic, social and charitable projects, including: Bristol Hospital, Bristol Boys and Girls Club, Grace Academy, CT Breast Health Initiative, Farmington Library, Rotary Club of Farmington, Hill-Stead Museum, Connecticut Science Center, New Britain Museum of American Art, Greater Hartford Arts Council, Wadsworth Athenaeum, United Way, Hartford Symphony Orchestra, German School of Connecticut, Red Dress Run, Malibu Fitness Road Race, Connecticut Innovation Convention, and The Connection Fund.

To help train the workforce of tomorrow, TRUMPF has donated high-tech equipment to educational institutions, awarded scholarships and internships to future engineering students, and contributed to student projects. Partnerships include: American Institute for Contemporary German Studies, Center for Next Generation Manufacturing, Central Connecticut State University, Connecticut Center for Advanced Technology, Manchester Community College, Naugatuck Valley Community College, Rensselaer Polytechnic Institute, Tunxis Community College, Three Rivers Community College, and University of Connecticut School of Engineering. TRUMPF frequently welcomes local vocational schools and student organizations, such as local high school robotics teams to visit the production facilities and learn about laser technologies.

In addition, TRUMPF has business and industry affiliations through board participation in the National Association of Manufacturers, Fabricators and Manufacturers Association, Connecticut Business & Industry Association, and German American Chamber of Commerce.
