power at the
investment cost of
3 kW

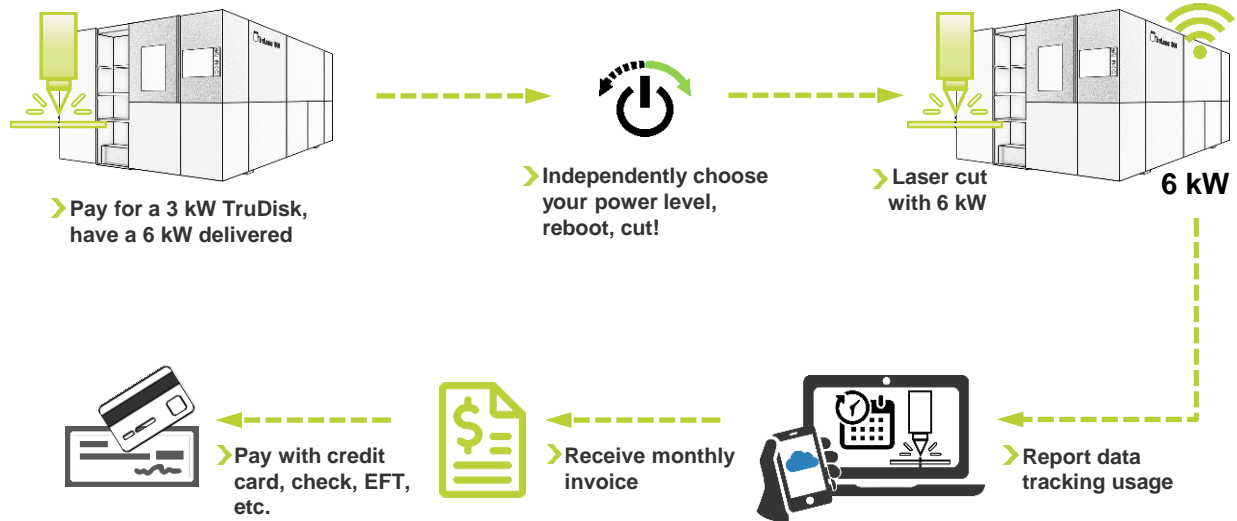

Higher
laser power

Lower
fixed cost

Flexible
usage

Power by the Hour

With TRUMPF's Power by the Hour, you can have up to 6 kW available for the price of a 3 kW machine.

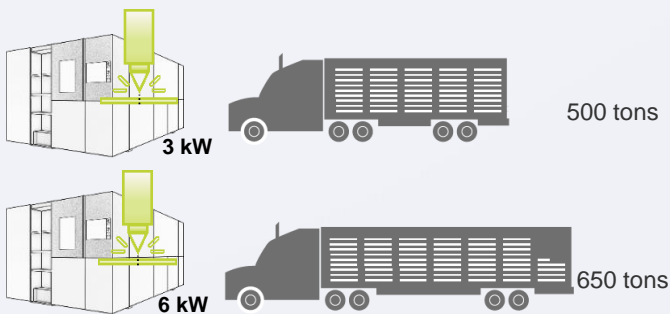

**hourly usage is based on Laser Beam on time*

Benefits

- > 30% lower fixed monthly costs**
- > Higher performance and material capacity when you need it
- > Pay for what you use
- > Boost productivity by up to 70%
- > Freely switch between 3 to 6 kW during production
- > Flexibility to buy full power at any time

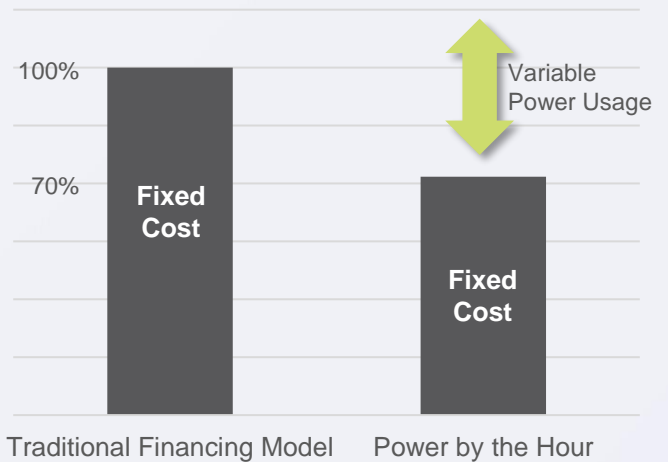

Production

Increase production with higher laser power

Monthly machine costs**

Take advantage of lower monthly machine costs** with TRUMPF's Variable Power Usage model.

** when financing a machine
