

Promotion no. 1: February - April 2024

Slat cleaner
TruTool TSC 100
Free of charge (value \$ 644.–)

Cleaning slats multiple times

The TruTool TSC 100 slat cleaner enables slats on laser flatbed machines to be used for up to **four times longer**. With the ability to clean slats multiple times, it is possible to **save up to 75%** of costs compared to regular slat replacement. Cleaning the slats regularly also extends their service life. This saves resources and boosts your sustainability credentials.

Free of charge: Part separator TruTool PS 100
Worth \$ 644.–

- The part separator ensures that small parts connected with nanojoints or microjoints can be easily removed

Product advantages at a glance

Slat cleaner

- Thoroughly removes slag, even on slats that are subject to high loads
- Cleaning the slats regularly increases the process reliability time and the quality of the manufactured parts
- Cleaning parallel to production on laser cutting machines with pallet changer
- Independent of the manufacturer of the laser cutting machine; can be used on all common slats

Technical data		
Slat cleaner TruTool		TSC 100
Support slat thickness	in	0.079 - 0.154
Max. slag thickness	in	0.984
Min. spacing between support slats	in	1.319
Working speed up to	ft / min	26.2
Rated input power	W	1700
Weight	lbs	39.7
Length / height	in	82.8 / 13.5

Subject to modifications

Part separator

- Up to 10x faster than manual removal
- Separates nanojoint and microjoint connections up to 12 mm
- Ergonomic and user-friendly: the machine can be guided at the machine head and the handle
- Option of changing holding positions; avoids remaining in one position
- With the rubberized hammer tip, there is no tilting or damage during removal

Technical data		
Part separator TruTool		PS 100
Connecting thread	"	1/4
Air consumption at 6 bar	cfm	2 - 4
Max. operating pressure	psi	87
Scrap skeleton thickness (max.)	in	0.472
Stroke rate (from - to)	1/min	500 - 1500
Weight (without hose and connector)	lbs	2.6
Length / height	in	3.46 / 8.78
