TruMark Station 7000

TruMark Station 7000 is a high-precision, multi-axis turning center designed for manufacturing complex, high-precision parts. It features a large, rigid cast-iron structure and a high-speed spindle, providing exceptional accuracy and productivity. The machine is equipped with a variety of tooling options, including turning, drilling, and grinding, making it a versatile solution for a wide range of applications. For more information, please contact your local TruMach distributor.
